

Product Data Sheet

Servomesh SP

Industrial Gear Lubricants

Description

Servomesh SP oils are extreme pressure type industrial gear lubricants. These oils demonstrate improved thermal stability and oxidation resistance over conventional lead-naphthenate oils. They have good demulsibility characteristics, low foaming tendency and provide rust and corrosion protection to metal surfaces.

Application

Servomesh SP oils are recommended for all types of enclosed gear drives with circulation or splash lubrication systems. Servomesh SP oils are particularly recommended for gear sets working under heavy or shock load conditions. These oils can be used in systems involving gears, plain bearings, roller bearings and sliding surfaces. They are also suitable for chain drives, sprockets, flexible couplings, plain and rolling element bearings employing splash, circulation and spray lubrication systems.

Approvals / Performance Standards / Recommendations

- AGMA standard 9005-D94
- ASLE standard G-315, G-1000, G-1500 and G-2150
- IS: 8406 – 1993 (Reaffirmed 2016)
- AIST 224 (formerly US Steel 224)
- Servomesh SP 68, 100, 150, 220, 320 and 460 meet Cincinnati Milacron. USA specification No. P-63, P-76, P-77, P-74, P-59 & P-35 respectively.

MANUFACTURERS' Approval

Servomesh SP oils are approved by

- Cincinnati Milacron, USA
- David Brown Gear Industries Ltd., UK
